Frontiers in Education 2016

The Crossroads of Engineering and Business

Important Due Dates:

Abstract Submissions: **February 4, 2016**

All Acceptance Communications: **March 14, 2016**

Preliminary Paper Submissions: **April 25, 2016**

Peer Review Final Acceptance Communication: **May 20, 2016**

Final Camera-Ready Paper Submission & Copyright: **July 8, 2016**

Early Registration & Hotel: **September 20, 2016**

Co-sponsored Event:

Integrating the "E" – Bringing Engineering into Your K-12 Classroom,
workshops for K-12 regional educators

Overview

The 46th Annual Frontiers in Education (FIE) Conference is a major international conference focusing on educational innovations and research in engineering and computing education. We welcome submissions related to educational issues in electrical and computer engineering, energy engineering, software engineering, computing and informatics, engineering design, and in other engineering disciplines. FIE 2016 continues a long tradition of disseminating results in these areas. It is an ideal forum for sharing ideas, learning about developments and interacting with colleagues in these fields.

Paper Categories

FIE welcomes full papers up to eight pages and work-in-progress papers up to four pages which address the broad tracks of (1) innovative practice, (2) research-to-practice, and (3) research. Work-in-progress papers are typically in frontier areas where it is understood the work is in an early or intermediate stage and authors are seeking feedback from the community. Additional information may be found on the FIE 2016 Web site.
